

ANGRY FLOATER CHARTER CONTRACT AND RULES

This contract is between Walleye Derby LLC doing business as Angry Floater Fishing and _____ residing at _____.

This agreement is to charter the Angry Floater Fishing boat for _____ hours fishing on waters of Lake Erie

Date of charter: _____ # of Guests: _____ Total cost of charter is: _____.

Terms and Conditions:

We will do everything in our power for you to have a great time on your fishing charter, but we do have some rules. Some are general rules for your safety and others protect the boat, equipment, and crew. Charters operate under our complete terms and conditions:

1. The Charter operates under the authority of your fishing guide. The fishing guide has the authority to terminate the charter in the event of unacceptable conduct by the charter party.
2. Charter capacity: 1 to 3 people per charter. Children are welcome, but do count against the charter party limit.
3. The total balance of your charter is due and payable at the dock prior to leaving on your trip (Cash, Credit/Debit card)
4. Charter party members 16 years of age and older must have fishing license. .
5. The charter includes appropriate and safe use of our properly insured and outfitted boat, the fishing guide, all tackle and bait.
6. We highly recommend children under age 12 wear a personal flotation device. We provide enough U.S. Coast Guard approved life jackets on board to accommodate everyone in the charter party.
7. The charter does not include food or beverages. You can bring a small to medium-size cooler with drinks and snacks, if desired. Alcohol is permitted for guests over 21 years old. In the event that members of your charter party become intoxicated to the point that the crew determines that they create a hazard to themselves or others, the charter will be immediately terminated without refund and the boat will return to dock.
8. We will do our best to try to get fish, however, there are NO guarantees concerning how many or what type of fish you and your party will catch. We do guarantee that the equipment is in proper repair and that we will do everything in our power to give you and your party a wonderful fishing experience. The sport is called "Fishing", not "Catching". There are days when we catch more fish than others, and there are many conditions that govern catching success; not in the least of those conditions, are abilities of the anglers in the party. Listening and following suggestions/directions from the crew increases the likelihood of catching fish, especially after fish have been hooked. It is possible that your charter might not produce 'keeper' fish.
9. No trash, garbage, or other materials are to be thrown overboard into the water. This includes cigarette butts.
10. No illegal substances or firearms are permitted on board. Discovery of the presence and/or use of illegal substances and/or firearms will immediately terminate the charter without refund and the vessel will return to dock.
11. The Guide, owner and crew shall not be held liable for any injury or fatality that is caused by either direct or indirect action of any member of the charter party.
12. A cancellation called by the fishing guide due to weather or mechanical problems will create either a credit toward another charter date or you may request a refund. A trip terminated due to the weather once fishing has commenced will result in a prorated refund if the charter party agreed to leave the dock. A trip terminated due to member(s) of the charter party getting seasick will not be entitled to a refund or credit.
13. We do not clean your fish.
14. It is the job of the crew to provide a pleasant and productive fishing experience. The crew will do anything within reason to make sure that you and your party have fun on your fishing charter. If you have questions, please feel free to ask.
15. We abide by all Ohio State Fishing regulations. Don't ask us to break the law. All 'shorts' will be released.

I agree with all the terms stated above:
